

**The Adapted Physical Activity in Vocational Education and Training (APAVET)**  
project, promoted by the **Institute of Technology Tralee**  
LLP/LdV/PA/2010/IRL - CP602

The planned partnership aims to develop upon the work of the recently completed European Inclusive Physical Education (EIPET) project -LLP/LdV/TOI/2007/IRL - 502 EIPET. The Objectives of the partnership are as follows:

- Review EIPET in terms of dissemination, valorisation, implementation. Devise a plan for further activities in this field.
- Gather and evaluate feedback on original EIPET resource by those implementing it.
- Plan through needs analysis and content analysis for future related projects in the areas of a) APA for VET professional preparation of students in sport and active leisure including coaching; b) identification of requirements for modifications of EIPET resources for use in developing countries; c) Framework for tailored EIPET packs for in-service and primary school PE teachers.
- Maximise the promotion of European tools for the transparency and recognition of qualifications; Identify accreditation routes being utilised at present by those utilising EIPET; promote Europass and EQF, diploma supplement/ europass cv
- Examine mechanisms for providing quality assurance for EIPET resources
